"Built To Fail"

I was given you
Some kind of a present
I was given you
Though you're
More Than I deserve

And I was put here
To give you
Everything you need
But instead I do
What ever it is I please

And I was built to give you
More than I do now
And I was built to show you
More than I do now
And I was put here
To give you
The world on a platter
But instead I just sit here
And do nothing
That really matters

You lift me up from
The world of fallen
You get me going
And this is how I thank you
