We're packing all our bags and we're leaving for a tree
house
Soon we're on our way
No one's worried nor aware of our precious ins and
outs
And we won't go back today
To our family yeah

Family, family have the heart to look at me
Have a heart and look at me
Family, I'm not what you think or see
I'm just me and only me
I'm not wasted, I'm not done

Alexander plays it great he makes us laugh and
imitates
The heroes of the day
Candy comfort's far away but the sugar kings is bound
to stay
He will have his holiday
Far away from his family yeah

Family, family have the heart to look at me
Have a heart and look at me
Family, I'm not what you think or see
I'm just me and only me
I'm not wasted, I'm not, I'm not wasted I'm not done

What's the cost of luggage lost
Where's the proof of parental love

Family, family have the heart to look at me, have a
heart and
look at me
