don't hold me back from what i want the most
i won't stop, not for love

don't hold me back from what i want the most
i won't stop, not for love

there's a silver lining on every cloud
now all the sins i'm trying are heavenly allowed

don't hold me back from what i want the most
i won't stop, not for love
don't hold me back from what i want the most
i won't stop, not for love

the light is shining behind a pack of doubts
and the pride i'm buying makes me merry and how

don't hold me back, don't keep me down
no longer i'm gonna fight this mighty hunger of mine

oooh

no not for love
no not for love

i'm right on track, just took the road i was destined to
i can lose my heave load
