My name is Ariel

And I want to be free

It is your sorrow

That has made a slave of me

Forgive me

Forgive me

But you are all I know

Forgive me for leaving

The day is breaking now

It's time to go away

I'm so afraid to leave

But more afraid to stay

Forgive me

For leavning

The sadness in your eyes

Forgive me

Let the wind and ocean water

Wash across your hands

Wash away a thousand footsteps

Wash us all away

Like sand

The sky has fallen
Now the earth is dry and torn
I know you're tired
>From the violence of the storm
I love you
I love you
But you are all I know
Forgive me
Let the wind and ocean water
Wash across your hands
Wash away a thousand footsteps
Wash us all away
Let the wind and ocean water
Wash across your hands
Wash away a thousand memories
Wash us all away
Like sand
My name is Ariel
