Well they never wanted to come out with me
To ska shows and skank around with me
Well I never ever wanted to go to the hardcore shows
until one night the two-step found its way into my heart.

It was like magic, for the first time i was free
I will never forget that feeling of doing my first windmill
that night with Glee

This is the last song, I'll ever skank to
It's time to throwdown my skanking boots and
celebrate some hardcore roots
I like Fugazi and Minor Threat
I'm tired of the checkered board, I think I'll strum a
minor cord with my axe
