I gave you everything that you needed but say you
never
Appreciated, now I can see it, so much clearer
It's apparent that you treated me vicious
I'm bout to start a fire and burn up your pictures
When you going ... rough, you told me you had enough
I was broke out of luck, when you started packing your
stuff
When I was grinding and took care of my bizness
You never gave support, you only acted suspicious

See I gave you my faith, but you slayed me
You played me
I'm free, but you caged me,
I see that you're shady
It's crazy, about lately,
I praise that it ain't be, a baby
It's gravy, I leave, but believe me

I'm fed up, fed up, with the way that you twisting
My head up, head up, whoa
I can't take this drama no more
History, this time I'm walking out that door, history
I'm so fed up, fed up, I'm not gonna let you fool me
I'm gonna get up, get up, get up
Got my money up for sure
History, this time I'm walking out that door, history
Oh, oh, oh, oh, oh, oh

All my friends ... but I've neglected it
Now I realize that we're better off living separate
I'm fed up with granting your wishes
I never thought that you would be so malicious
Like ... erupt, all my emotions the pop
I been taking this too long but see this time I will not
Cause now I'm starting to regain my charisma
And if I ever meet a girl like you I will diss her

See I gave you my faith, but you slayed me
You played me
I'm free, but you caged me,

I see that you're shady
It's crazy, about lately,
I praise that it ain't be, a baby
It's gravy, I leave, but believe me

I'm fed up, fed up, with the way that you twisting
My head up, head up, whoa
I can't take this drama no more
History, this time I'm walking out that door, history
I'm so fed up, fed up, I'm not gonna let you fool me
I'm gonna get up, get up, get up
Got my money up for sure
History, this time I'm walking out that door, history

We're on a different level, on a different planet
There's no way I can handle, there's no way I can stand
it
I'm over you, I'm breaking up the habit
I'd be a fool if I didn't cause we lost the magic X 2

I'm fed up, fed up, with the way that you twisting
My head up, head up, whoa
I can't take this drama no more
History, this time I'm walking out that door, history
I'm so fed up, fed up, I'm not gonna let you fool me
I'm gonna get up, get up, get up
Got my money up for sure
History, this time I'm walking out that door, history.
