[E-40:]

Where you been all my life? You got some junk in your trunk

Ma you built up, you got a big budunkadunk

You a bad mama-jama, you gotta shake that rump quick

Super fine, super bad, super sexy, and super thick

[V Factory:]

I see this little cutie she caught my eye (my eye)

I can't help it 'cause she's so fly (so fly)

Like a melody she keeps spinnin in my head, can't get her out, she's so fine (so fine)

I really wanna get her name (her name)

I'm tryna see what's good with her (with her)

She's so {what? } like a star, I can see her [soakin'] up and havin' some fun

[Bridge:]

I don't deny that she not gonna be mine cause she's an angel

Hood rich, she's drop dead gorgeous from head to toe like whoa

I know when I get her with me get one dance that's all I need fsho (fsho), fsho (fsho), fsho

[Chorus:]

That girl that girl she's bad

Got me goin' crazy, can't move on, can't think

She bad she bad she bad (she bad)

She bad she bad she bad (she bad)

I'm trippin I'm trippin she's bad

Got me goin' in circles don't know what to do

She bad she bad she bad (she bad)

She bad she bad she bad (she bad)

Caught her at the spot, she was chillin' with her friends (her friends)

I said whattup, I was with mine, too (mine, too)

She tried to be slick, tried to play hard to get, call me on the floor, had to make a move

Got close up, it was just her and me (her and me)

I was feelin' it like one, two, three
Before I knew it she was all over me
Talkin' 'bout "hey boy, watchu gon' do? "

[Bridge:]
