"Goodbye"

Always watching from the outside
I wanted to get in

I'm watching the world spin
I want it to stop

Remembering faces of people
And I cannot recall

All that I'm asking
Remember my name
Remember the joy and the love
And not the hate

Always watching from the outside
I wanted to get in

I'm watching the world spin
I want it to stop

Remembering faces of people
And I cannot recall
Their name

All that I'm asking
As I say goodbye
Don't let my name
Blend in
And disappear

Remember my name
