I'm really feeling good today  
You know it when you see my face  
There are no sorrows on my mind  
Why? I don't know, it feels all right

Trust me, I know these things  
Are worth more than you

The sun is shining down on me  
Dead squirrels falling down from trees  
But nothing brings me down today  
Dead squirrels from trees are good to eat

Trust me, I know these things  
Are worth more than you

Trust me, I've seen some trees  
Green, so green, with shining birds  
Singing of no love and joy  
But of things from outer space

Trust me, I know these things  
Are worth more than you
