Slowly the center of the universe shifts  
No longer is he the birth of my shame  
Now I see the end to this  
Now I'm free to end all this

He don't call me  
and I surrender  
He won't see me  
but I am headstrong  
and I could be a little better  
and I could be a little bit stronger  
and I could be a little bit of everything

He was the stone on the ground I stepped upon  
He meant to have me as I was for way too long  
Now I see how I grew up  
Now I'm here and he's torn out

He won't call me, and I surrender  
He won't see me  
but I am headstrong  
and I could be a little better  
and I could be a little bit stronger  
and I could be a little bit of everything
