"Friendship"

Friendship can bring us together friendship can pull us
apart friendship can

be on the outside or it can come from the heart only
some people know it can

also come from a rainbow most people know that it's
there bus some people just

have to bear the fact that they don't have any friends to
share many good

times and the bad times or any times when the clock
chimes!

Friendship can bring us together friendship can pull us
apart friendship can

be on the outside, or it can come the heart!
