Never knew I'll be glad about it  
You turned around and shouted  
"We're through, ain't stayin' no more"  
And I smiled when you walked out the door  
Never wanted anything  
But a love unconditionin'  
You rode all over me  
Now my eyes are open and I can see  
Never thought I'd ever survive  
But I never felt more alive

Now I'm cruisin' down the interstate line  
And I can take any turn that I like  
Man it's great just being free  
Man it's great just being me  
Just cruisin' down the interstate line

Well I could take a small trip around the world  
Try and find me another guy  
But I think I'll sit back and take a little time  
Find a beach, tequila in the Hawaii  
I can see that long white stretch of sand  
Little umbrella and my drink in my hand  
Ain't no more clockin' up 'til five  
Cause the fresh is hot, time to unwind  
Never thought I'd ever survive  
But I never felt more alive

Now I'm cruisin' down the interstate line  
And I can take any turn that I like  
Man it's great just being free  
Man it's great just being me  
Just cruisin' down the interstate line

Oh, I'm cruisin' down the interstate line  
And I can take any turn that I like

I am cruisin', just cruisin'
