Hello my beautiful
It seems I just can't stay away
It's been so very long
That I've felt anything this strong

You hold my heart the way you did an hour ago
I've said all I can say and yet I must be sure you know

[Chorus]
That I love love love you
I need need need you
I long long long to hold you in my arms again
I'm so so sad to
Ever hurt hurt hurt you
I'm more afraid of losing you than anything before

(Heeeeeey yey yeah oh...)
(Ooo-oh oh)

[Chorus]
I love love love you
I need need need you
I long long long to hold you in my arms again
I'm so so sad to
Ever hurt hurt hurt you
I'm more afraid of losing you than anything before
Please can I have one more... hello
