What time is it? Ain't no need to check the clock (Fuck it)

Cause time stopped (Fuck it) Game over (Game over)

[Esham]

When we gun this

You'll get punished

Detroit re-runs this

Don't get me confused with MC's still payin' dues

I'm a classic, let me spit my acid

Stay in an all glass kit

Until I burn up in my casket

My carnivores dramatic

I'm sick, sicker than sick

Bitch suck my dick

I still bust all slugs and thugs

And get to fuck you to with

Don't care, yo shit's spilt

Never admit

Cause killas don't talk about the murders they commit

Come again now!

(Chorus)

(Y'all fucked us again, now watcha gone do nigga?)

Just another motherfuckin enemy

Just another motherfuckin enemy

Just another motherfuckin enemy

Just another motherfuckin enemy

[Masta Mind]

Now before you get yo ass beat

Don't ask how I'm livin' or what my religion

Niggas want me to hand the mic to the participant
down and give it

Roll me to the top from a site

But I'm a all night rider type

You better be ready for war in the worst way

When you decide to fight

You can't get paid on the streets

So hold on tight, until you heat

Lookin at me like you got somethin to say

Don't even try to speak
Its killa bee kill say please
Murder really ain't no sin to me
A million motherfuckers with me
Then I call it a million enemies
Come on!

(Chorus 2X)

[Esham]
Run they mouth, from here to down south
Don't know what the fuck they talkin bout
We from Detroit got too much fuckin clouds
Stay off my route
I'm bout bout murder
No doubt
You gone clean the shower
But when you right I hail out out

[Masta Mind]
Kickin off that game
Call timeout
Young niggas gone find out
Who's supportin the braids
>From underground
And watch me climb out
I'm all about that wicket shit
I scream "Never die!"
The game is getting stormy now
Can you win the ride?
Come on!

(Chorus 2X)
