(German talking throughout)  
As they stare into our flesh  
At the end of what comes next  
Peering deep into the light  
X-ray hamburgers tonight  
Bitter pieces hovering  
In outer space  
Running tests upon our stars  
Bits and pieces of our hearts  
Burn so hot beneath the light  
X-ray hamburgers tonight  
Evolution of a race  
In outer space  
You're the change that had to come  
As we stare into the sun  
Pane of glass we can see through  
X-ray hamburger is you  
X-ray hamburger to go
