Hey Mister, you on the street

With no hope in your eyes

I can see you

Sometimes I will see

What I want to see

Sometimes I just watch

I watch him fade away

I watch him fade away

If he makes it through

Through another night

That it be alright

Will we ever be surprised

Take a look

Use your eyes

Use your head and realize

Take a look around tell me what you see

Sometimes I just watch

I watch him fade away

Take a look around tell me what you see
