[Lyrics: Morgan Thorn, Geoff Thorpe]

I am your hero
I am everything you'll never be
Toxic and worshiped
I'll eat all your ammunition...
A fortress of fear and pain is coming straight ahead
Bring on your war, don't give a damn
Your negativity could raise the fucking dead
Misuse of power is all you understand...
You will drown in me
Liquefy...
Meltdown, disintegrate
Your body walks without a soul
Conquest, contaminate
Your bullshit drags you down the road...
A fortress of fear and pain is coming straight ahead
Bring on your war, don't give a damn
Your negativity could raise the fucking dead
Misuse of power is all you understand...
You will drown in me
Liquefy...
You think you can stop me, but you won't
Because I've got the willpower and you don't
Becoming the water, flow...
You will drown in me
Liquefy...
Oceans of anger
I won't choke on your insanity
When I, when I Liquefy
Nothing means a damn to me...
A fortress of fear and pain is coming straight ahead
Bring on your war, don't give a damn
Your negativity could raise the fucking dead
Misuse of power is all you understand...
