[Thorpe]

Rising high in the burning sky
A kiss of death surrounds you
Black is the night
You're fade out of sight
That no one ever finds you
To live or die
Never touch the crest
All the poisoned minds
Live inside the crest
The guilty and crime
Assault has survived
But life is rotting low here
You'll see what I mean
If you follow the stream
The blessed is in control
To live or die
Never touch the crest
All the poisoned minds
Live inside the crest
The trip's our lives
But time's on your side
Beware and watch for the shadows
The lesson we learn
Don't make the wrong turn
We will go together
To live or die
Never touch the crest
All the poisoned minds
Live inside the crest
We will go together
We will go together
We will go together
We will go together
