(Lyrics & Music: G. Thorpe, L. Howe)

I can't breathe, I'm open wide  
Start to lose my mind  
Love is falling  
Walls come crashing  
Can't keep track of time  
Now I'm pushed to the edge  
I'll take on the edge  
Concentration, set me free  
So I can see again  
Concentration, let me be  
So I can breathe again  
Yeah, I can see you beneath my soul  
Yeah, I know you're still there  
I can see you beneath my soul  
Was I really there  
Mastermind with an iron spine  
Plant the seed again  
Will we suffer - I think so  
It's up to you my friends  
Concentration, set me free  
So I can see again  
Concentration, let me be  
So I can breathe again
