Hey Mister, you on the street
With no hope in your eyes
I can see you
Sometimes I will see
What I want to see
Sometimes I just watch
I watch him fade away
I watch him fade away
If he makes it through
Through another night
That it be alright
Will we ever be surprised
Take a look
Use your eyes
Use your head and realize
Take a look around tell me what you see
Sometimes I just watch
I watch him fade away
take a look around tell me what you see
