[Lyrics & Music: Vicious Rumors]

Pounding their way through your head see it all in your eyes

Reflections of overindulgence you're barely alive

Washing away in a swirling mass of confusion you're going to break!

On the edge

Living faster you live

On the edge!

Time after time anytime anyplace.. just don't care

Headstrong and blind plunging headlong no mind, unaware.

Head to the floor, face in the mud

Watch as you turn into ice!

On the edge

Because you do it so well

On the edge!

[Lead]

Now that your eyes have been opened to what lies ahead

Don't be a loser, abuser, you may wind up dead!

Up off your ass!!! Take control 'cause the key to your destiny lies

within you!

On the edge

Living faster you live..

On the edge...!!!

Into the pit

down the hatch

Sinking fast

Can't get back

No way out

For you now

What the hell

Will you do
