[Starr/Thorpe/McGee]

Now we're in the barrows  
Of rulers who have lived  
Enjoyed they once had it  
Made his amend  
Now here tonight  
You crossed to the edge  
We'll never let you down  
We'd rather drop dead  
Rock like hell  
Rock like hell  
Rock like hell  
Forces of the wicked  
Travels to the end  
Right up here on stage  
Oh people on our heads  
Just because my leather is black skintight  
When we hit the stage we rock all night  
Rock like hell  
Rock like hell  
Rock like hell  
Rock like hell  
Fire and water begins to boil  
Who awaits the potion  
Of driving me closer to you  
Closer to you  
So when you're taking off  
Back to reality  
Tell me my friend  
What is it that you see  
The spice of this encounter  
Cause the boys in the band  
Apparently the truth  
Is what they just can't stand  
Rock like hell  
Rock like hell  
Rock like hell  
Rock like hell
