Da da da da da daa [x3]

It started on the day you came

I lie
Nothings ever felt this way before
A special kinda love
I can't hide

Inside
It happens every time that you are near
You know I'm bad enough
And baby it don't ever stop

[Bridge:]
The music starts it's like a symphony
It never face keep calling
How can I get by

[Chorus:]
You got me
You want me
Any which way
I'm falling baby
I can't explain what's happening
It started on the day you came

And your eyes
They tell me all that I've been looking for
I can't prom away
Now it's my time

Disguise
I tried to play the game for innocence
But destiny
Oh it's got a hold of me

[Bridge]

[Chorus]

You want me
You got me
Dancing inside
I'm falling baby
I can't escape what's happening
It started on the day you came

Da da da da da da daa [x3]

It started on the day you came

Da da da da da da daa [x3]

Can you hear me boy

[Chorus]

You want me
You got me
Dancing inside
I'm falling baby
I can't escape what's happening
It started on the day you came

Da da da da da da daa [x6]
