I don't believe in the apocalypse  
I don't believe in the end of time  
I don't believe in the solar eclipse  
I don't believe in valentines

I don't believe I asked opinion  
I don't believe I stretched the truth  
I am not looking for a bargain  
All I really believe in is you

I don't believe in everything I've read  
I don't believe in promises  
I don't believe in compromising  
My own beliefs inside my head

- Chorus - I don't believe I asked opinion  
I don't believe I stretched the truth  
I am not looking for a bargain  
All I really believe in is you

I don't believe I asked opinion  
I don't believe I stretched the truth  
I am not looking for a bargain  
All I really believe in is you
