(German talking throughout)
As they stare into our flesh
At the end of what comes next
Peering deep into the light
X-ray hamburgers tonight
Bitter pieces hovering
In outer space
Running tests upon our stars
Bits and pieces of our hearts
Burn so hot beneath the light
X-ray hamburgers tonight
Evolution of a race
In outer space
You're the change that had to come
As we stare into the sun
Pane of glass we can see through
X-ray hamburger is you
X-ray hamburger to go
