I don't want that kind of girl
seen her face 'round me before
broke my heart and out poured oil
I don't want that kind of goil.
Ella asta terrible, and she having a field day
she left me hanging all on my won
and she dances fantastic, with legs like elastic
and eyes like a dark hood
I just think that you dance good.
In my mind estupido, I must fight my libido please
don't let me end up all on my own.
I once danced but I'm alone now
had my chance, but lost it somewhere
long the lines, it's time to lay down
