

Never, The "Antarctica"

It's time to lay the kids down to sleep
And pray the lord their souls to keep
For if they cry in fear that I might not come back
It's in the haunted forest where the witch cooks her kids
And I'm delirious as she sings me her song
The cops and the dogs are close behind
To save me from her knives
They pull me out just in time

But in Antarctica it's a place where I don't feel alone
In Antarctica our worries are buried in the snow
And the witch can't find me here
And all of my friends are there

And I'll find my heart in Antarctica
And I'll find my heart in Antarctica

I've been in this car far way too long
It's twisted my back all wrong
I can't open my hands
They are far way to wake
And fall it only comes twice a year
Once in autumn and once for fear
I blame it on all my tears
I blame it on all my tears

In Antarctica it's a place where I don't feel alone
In Antarctica our worries are buried in the snow
And the witch can't find me here
And all of my friends are there

And I'll find my heart in Antarctica
And I'll find my heart in Antarctica
And we'll never part in Antarctica
In Antarctica
