Sure, I know
You're just confused & unsure
You're just misused
By all of those guys
You're leading me on

And I'm sure you need more time
To think about your life
And all of those unholy things
That you've done

Oh look you're crying in your hole
Trying but no one cares & no one can hear
You're so ... anymore
Oh look you've been fucked again
Regarded by all your friends as whore
And I don't need you anymore

Up to church
You're feeling dirty
God loves you all so much
And you can hide your guilt
Under your dress & pretty hair

Oh look you're crying in your hole
Trying but no one cares & no one can hear
You're so ... anymore
Oh look you've been fucked again
Regarded by all your friends as whore
And I don't need you anymore

Oh look you're crying in your hole
Trying but no one cares & no one can hear
You're so ... anymore
Oh look you've been fucked again
Regarded by all your friends as whore
And I don't need you anymore
