Watch out bombs are falling
Don't fall out of love
Say that your heart
That my heart, that it's not broken

And the witch is forever haunting
She'll haunt you into fear
Hide under the stairs, pray to god
She won't find me here

Bomber pilot
How could you drop your bomb
You don't even know me at all
Bomber pilot
Bomber pilot
I hope you lose your way
Maybe could just live for one more day
Bomber pilot

And one it's for your country
And two it's all for me
Oh no

Bomber pilot
I hope you lose your way
Maybe could just live for one more day
Bomber pilot

Bomber pilot
How could you drop your bomb
You don't even know me at all
Bomber pilot
Bomber pilot
I hope you lose your way
Maybe could just live for one more day
