

Never, The "Farm Land"

Visit "[Farm Land](#)" on MotoLyrics.com

You've been on my mind today
I had a dream I heard you say
something made me feel this way, it's nice
You had called me baby like,
We'd been together for some time
It had never crossed my mind before

When I pass a country road
I have to wonder where it goes
A friendly face a pleasant place to live
But country roads they turn to black
And all the houses start to stack
And now I don't know where I'm at, at all

You've been on my mind today
I had a dream I heard you say
something made me feel this way, it's nice
