

Never, The "Snow Starts To Fall"

Visit "[Snow Starts To Fall](#)" on MotoLyrics.com

We walk hand in hand
Through a winterland
Lips so cold they turn blue
And match your eyes a bit
You look so nice like this
It's like I've never seen you
And all these companies
With all their factories
Want to turn our snow into water
And no one's drinking it
They all just sink in it
And all that's blue to turns to gray

When snow starts to fall
I'm gonna play in it
Stop everything and lay in it
I'll watch a world slow down
When my job here is done
I'm gonna run back home
But I don't wanna be alone
So you can come along if you want
Just come along if you want

When snow starts to fall
I'm gonna to play in it
Stop everything and lay in it
I'll watch a world slow down
When my job here is done
I'm gonna run back home
But I don't wanna be alone
So you can come along if you want
Just come along if you want

Don't make a mess of it
Don't make a mess of this
Don't make a mess of this
Don't make a mess of this
