Get back into my heart  
My lovely thoughts  
I wait for this feeling to start  
Where has it gone

Don't forget me world  
And don't forget me world  
Have I lost my heart?  
Don't forget me world

We could drive down the street  
Listen to the air  
But my friends all lie in the sun  
I wish I was there

And don't forget me world  
And don't forget me world  
You're breaking my heart  
Don't forget me world

Lonely or not  
You got to love what you got  
Don't give up what you have  
To get back there, back there  
Lonely or not

You got to love what you got  
Don't give up what you have  
To get back there, back there

Lonely or not  
You got to love what you got  
Don't give up what you have  
To get back there, back there

And don't forget me world  
And don't forget me world  
Cause my heart is yours  
Don't forget me world
