"Lost But Not Alone"

Visit "[Lost But Not Alone](#)" on MotoLyrics.com

We sat on a bridge
And smoked until our lungs collapsed
Like the rocks beneath our feet
And the rain fell so fast
Our shoes were wet and weak
But we never thought to go back home

And we said and we said

We are lost but not alone
We are lost but not alone

I was bejourning softly
And you thanked me for being loved
Like the time when you were much younger
(And she said)
And our dreams did grow
Where they take us, we never did know
I'm sorry for everything I did
I'm sorry for everything I did

We are lost but not alone
We are lost but not alone

We are lost but not alone
And we are trying to
Find our way back home
And we all we say is
We are lost but not alone
And we are trying
To find our way back home
And all we sing

We are lost but not alone
We are lost but not alone
