amphetamine annie-dog
has her leash and a face
her velvet spleen her shackle spine
her diamond curse
it comes with mine
a vessel she
for violent I
confession arms a wake
mine, mine you were always mine
possessed by my taste
and below the angel dog
combs her hair and sings her psalms
the bombs go off
she doesn't notice
it all goes wrong
she sets things tragic
she is venus
she is mars
she's electric
and the struggle of
upon my face we leave no trace

but in her stomach mercury aged
she holds the blood
she carves the knives
she digs the wives in our babies
amphetamine annie-dog
pulls her trash
and her stories
from place to place
and bed to bed
gives of herself and the magnet head
another floor another ceiling
counting stairs with double meanings
is it wrong to be swallowed whole
to disappear in her
to give her the priceless peace
of giving up control
we tumble out into the streets
and annie-dog she drags her leash
pretty face
ugly mouth
bitter bred and so released
and by the no
and by the yes
annie goes if you couldn't guess
a simple man

a sycophant

her elephant with the laughing call

she wants clean sheets

and fresh flowers

and dental shots

and the hong kong glue

amphetamine annie-dog

has her leash and a face
