I wish I was blank

I wish I was blank

I wish I could thank

I wish I was blank

I write a letter to you

And there'd be nothing to it

I wouldn't hem and haw

On just how to start it

I wish I was blank

I wish I was blank

I wish I could thank

I wish I was blank

I wish I'd stand up straight

I wish I'd said things different

I wish I'd said nothing

Things would be so perfect

I wish myself to keep

I pray myself to sleep

I wish myself away

I wish I was blank
