"Bodies"

cast the pearls aside, of a simple life of need

come into my life forever

the crumbled cities stand as known

of the sights you have been shown

of the hurt you call your own

love is suicide

the empty bodies stand at rest

casualties of their own flesh

afflicted by their dispossession

but no bodies ever knew

nobodys

no bodies felt like you

nobodys

love is suicide

now we drive the night, to the ironies of peace

you can't help deny forever

the tragedies reside in you

the secret sights hide in you

the lonely nights divide you in two

all my blisters now revealed

in the darkness of my dreams

in the spaces in between us

but no bodies ever knew

nobodys

no bodies felt like you

nobodys

love is suicide
