You gotta understand

You gotta understand

It's just a fact that you must attack

Gotta get it while you can

Well, everyone's gonna be a big star

Everyone's gonna drive a fast car

Everyone's gonna be in charge

Cause everybody's business is everybody's business

Yeah, we hope you'll understand

Yeah, we got a messed up plan

Yeah, we're an American band for you

Cause when you're hypnotized

Cause when you're hypnotized

They'll spin you gold and paint you black

With the blood of your surprise

Well, everyone's gonna be a big star

Everyone's gonna drive a fast car

Everyone's gonna be in charge

Cause everybody's business is everybody's business

Yeah, we'll help you calm it down (?)

Yeah, we'll come into your town

Yeah, we're an American band for you

Yeah, nobody understands

Yeah, that we made our plans

Yeah, that we're tearing it down for you

For you...

Everyone's gonna be a big star

Everyone's gonna drive a fast car

Everyone's gonna be in charge

Cause everybody's everything is nobody's nothing

Everyone's gonna get a big gun

Everyone's gonna shoot someone

Everyone's gonna ruin the fun

Cause everybodys business is everybodys business

Gotta understand

Gotta understand

Just a fact that you must attack

Gotta get it while you can

Everybodys business is everybodys business (x2)
