Lover lover let's pretend

We're born as innocents

Cast into the world

With apple eyes

To wish wish dangerous

My dear delirious

To try and leave

The rest of us behind

Shot full of diamonds

And a million years

The disappointed disappear

Like they were never here

Kiss kiss all of this

The hiss that we had missed

And understand what can't be understood

Sear those thoughts of me

Alone and unhappy

I never liked me anyway

If by chance

Or circumstance

We should fail

Don't be so sad
Shot full of diamonds
And a million years
The disappointed disappear
Like they were never here
In a dream
We are connected
Siamese twins
At the wrist
And then I knew we'd been forsaken
Expelled from paradise
I can't believe them
When they say that it's alright
Words can't define what I feel inside
Who needs them?
Caught with this virus of my mind
I give in to my disease, of my needs
To my disease, of my needs
She really loves to break
Her dad says its OK
She really loves to break
And give it all away
Her ma says she's afraid
What more can she fake
She really needs to break

And give herself away

She gave it all away

She gave it all away

She gave it all away

We really love the USA
