kiss and kill me sweetly

come and drive me home

drag the miles in me

I am yours alone

inside where it's warm

wrap myself in you

outside where I'm torn

fight myself in two

in two

into you

desire me so deeply

drain and kick me hard

whisper secrets for me

try to go too far

inside where it's warm

wrap myself in you

outside where I'm torn

fight myself in two

in two

into...

please don't change

please don't change at all
bring your rain
bring your rain to fall
inside where it's warm
wrap myself in you
outside where I'm torn
fight myself in two
in two
into you
come and kiss me sweetly
ride the telephone
drag the miles to me
I am yours alone
yours alone
on the telephone
yours alone
looking for a kiss kiss
yours alone
