you're gonna walk on home

you're gonna walk alone

you're gonna see this through

don't let them get to you

shame

love is good and love is kind

love is drunk and love is blind

love is good and love is mine

love is drunk all the time

shame

you're gonna walk on home

you're gonna walk alone

you're gonna walk so far

you're gonna wonder who you are

shame

love is good and love is kind

love is good and love is blind

love is good and love is mine

love is good all the time

hello goodbye, you know you made us cry
