Featuring Miss Jones]

[Big Punisher]

I was the luckiest man on Earth, my wisdom was worth  
any purse but had a curse that hurt worse than givin  
birth

My first verse explains some of the game she was  
playin

I'm blamin myself cause in my wealth was her pain  
would haven

Behavin like a money hungry hooker, funny how the  
money took her

from a average honey to a stunning looker

I look back and reminsce how we used to kiss

and smash hips in the GS I bought her last Christ'

She got too big for her britches but The Britch is Over

Not the one in Queens I mean the one she dreamin  
wasn't sober

Told her how I felt, gassed me when she cried for help

Supplied the guilt trip and I was whipped without a  
fuckin belt

I felt stupid Cupid struck me with a poison arrow

Shoulda drowned ya when I found ya crushin in my  
boy's Camaro

I didn't bother but you probably find your lover dead

You robbed me of my honor, you ain't shit like my  
mother said

Chorus: miss jones

Come back come back come back come back to  
meeeee, Punisher

Punish me... ahhhhhhhhlll've been so bad, so bad

Won't you come back?

[Big Punisher]

Nah baby, I'm Not Gon' Be Able to Do It; You blew it

Threw it all the way cause you was stupid -- girl why'd  
you do it?

I mighta knew it by the way you gave me your baby

Then left a day before I ever saw the son that God  
made me

It's hard maybe we can make amends, be friends

But 'Roni hurtin all of us for certain by forsakin him

Just take it in, don't even say a word, observe

the way you were, preserved, these words so you won't  
play the herb

ever again, never pretend that he doesn't have a father

I'm always there and you don't wanna bother

I honor my word on my father's grave, guide him  
through his hardest

age

So he can thrive and survive in these modern days

I wanna raise my little man but you keep resistin

I'm insistin you chill for real before you come up missin

Listen, I don't wanna fight I'd rather do what's right

A boy needs a father that's the most important part of

his life

Chorus 2X

[Big Punisher]

I gave you everything, love letters and sweaters with  
leather seams

Feathered wings, and rings with emeralds right out of  
Geraldine's

Simple dreams a dream fulfilled, the green DeVille  
Cadillac

to mack, not a fact ?redeemed to build?

I mean for real I can play it mami how you wanna stay

at Monty Frask, givin the next nigga my punani

You want me back cause he hit it wrong, now you  
wanna get it on

with the Long Don, word bond my shit is strong (come  
back)

Girl don't even start again, I beg your pardon

and get your hands off my six button Cardigan

This ain't no love lost between us far as I'm concerned

Please leave, cut that busted weave I've been dyin to  
burn

Go buy a perm, try and earn some respect

It's better to have loved and lost than live with regret

[miss jones]

Come back... to, me

I want you to

Chorus 2X

to me, yeah yeah

Alright, don't go, no

Ohhhhhahahaoohhoahhohhh, hmmmmmm ohh  
hmmm hmm

Yeahhhhhhhh, take my hand, and punish me

Hmm, been so bad, come punish me, yeahh

Take my hand, and punish me, ohhh

Been so bad, come punish me
