Verse 1

I know that every morning you wake
And think I'll be there
No matter how my heart aches
I pretend just to show you I care

Pre Chorus

But time doesn't make this alright
Why do these feelings keep coming
Back in my mind
Can't you see
Our love's fading

Chorus

Don't know why I even try
To make you feel alright
Always looking out to see that
You would be okay
Don't know why I even try
So hard to make things good for you
Will you finally notice me
If I disappear

Verse2

Sometimes I wish I could fly
Far away and let go of my fears
Leave all my hesitations behind
Hoping love would grow without me near

Pre Chorus

Repeat Chorus

Don't know why I even try
So hard to make thingy good for you
Will you finally notice me
If I disappear
