Mother nature's been good to me

That's why I'm sittin in this cherry tree

But it's alright, it's alright

It's not so bad

I'm just a touch away

The shady lady

from shady lane

is lying in my bed again

and it's alright

it feels good

It's not so bad

When she's just a touch away

Nothing much

is all I ask

and it's alright, ok yes

Light as a feather, oh yes

Like a rosebud

when the sun is high

She opens up

before my eyes

and the light falls

on her wet skin
It's alright
I'm just a touch away
Nothing much
is all I know
and it's alright, oh yes
Light as a feather,
and just a touch away
Put a finger to her lips again
She cries with pleasure
cries with pain
and it's alright
It feels good
It's not so bad
We're just a touch away
Nothing much
is all I know
Not too fast
Not too slow
and it's alright
Soft as a feather
and just a touch away
