I came 'round to your front door, your back door was  
locked

Pushed your button, rang your bell, you didn't hear me  
knock

I saw your window open wide, so I crawled inside

I ran to the top floor, but you were on the ground

I was on my way up and you were going down

Fire in the basement

Burn me up, scream and shout

There's fire in the basement

Only you can put it out

This strange sensation that I'm going through

Sweet infatuation when I get next to you

I know what it takes to be a man, you understand

'Cause when the sparks start flying you'll never be the  
same

You know I'll hate to leave you girl but I'm so glad I  
came

Fire in the basement

Burn me up, scream and shout

Fire in the basement

Only you can put it out

Smoky eyes burning bright

Innocence lost, satisfy my appetite

Surrender to the flame, what's your name

Let's get down to business, how can you refuse

Give this boy a helping hand, come on light my fuse
