On the lonely road I'm travelling on  
The road that leads nowhere  
As the ground and the sky have been wondering why  
I'm alone, so alone

I've been rolling on for just two years  
The sun is my only friend  
With the wind on the bend and my back in my hand  
I'm alone, so alone

I'm alone, so alone  
I'm alone, so alone  
I'm alone, so alone  
And I feel like going home

With my money spent, my clothes all torn  
My spirit hanging low  
I ain't got no friends where the highway ends  
I'm alone, so alone

I'm alone, so alone  
I'm alone, so alone  
I'm alone, so alone  
And I feel like going home  
Going home
