You can walk through fire
Make the north wind blow
Squeeze and tease me honey
When you shake your body
You move my soul, oh yeah
Let me be your lover
Won't you let me be your child
Take me through your universe
You know that when you smile
You drive me wild
You got me shakin' all over
Love child, you're driving me wild
Love child, always teasin' me
You can ride your pony
Daydream in fairy tales
All I know is I need more
When I see you dance the seven veils
Ah, shake, ooh
