Thinking out of line just to make the sun shine

Anyway I can be like you

Fighting with the truth

Trying to hide a fool in a fantasy

I'm dreaming, lay me down and take me now

Our Lady of the skies

Hiding in the sun like a loaded gun reality

Aiming high at my dream

But I can get along

She makes me strong, anyway

I'm dreaming and there is no other way

Our Lady of the skies

Flying in the sky with a bunch of high fidelity

I can hear your song

Offer me a ring just to show me your sincerity

I'm dreaming, let me go

Our Lady of the skies
