

New Monarchs, The "Kiss Me At The Gate"

The sky is black and grey
These days keep on getting longer
You don't seem to play
Around my sandbox anymore

Kiss me at the gate
Like none of this had ever happened
We make believe today
But soon we will be back to normal

If you made up your mind
Would I still stand here in denial
So I have made a choice
To stand right here and watch you go

Kiss me at the gate
Like none of this had ever happened
We make believe today
But soon we will be back to normal
