"My Love"

Visit "[My Love](#)" on MotoLyrics.com

In my mind I only see
Your face I adore
Your love that I'm only sure
Like an angel from above
Rain the joy to me

In your eyes I only see
The heaven shining through the nights and weary
Grant the meaning to my life again
After the world I knew
To the brand new sphere anew

You are my love my heaven
Guidance in the dark
Lighting along the way I share with you
My love my heaven
Yearning through the days
Your smile turn into spell

You are my love
