Still for you still for you still for you  
You say I was considered by you  
And you say sweeten up hey you  
And you say you know that's true  
And some say I wouldn't know if I were you

[Chorus:]

I still find my way around  
Don't know if you are still alive  
Need to know this time around  
You were so lost and now you are found

Still for you still for you still for you  
And you say hey baby you  
You are so sad  
Used to consider you  
And they say think of you only you  
And they say before you break in two  
And some say hey baby you  
You are so sad sweeten up Baby Blue  
And they say you know that's true  
You are so sad you're so sad you're so sad sad sad

I still find my way around  
Don't know if you are still alive  
Need to know this time around  
You were so lost and now you are found

But I still find my way around  
Want to know if you are still alive  
Need to know this time around  
You were so lost and now you are found

But I still find my way around  
Want to know if you are still alive  
I need to know this time around  
Need to know this time around

So lost and you are found  
Don't know if I am still alive  
Need to know this time around [x4]
